

03/04/20 update: We are open to the children of keyworkers and vulnerable children over the Easter holidays except the Bank Holidays. If you need to contact us about changes to the places you have booked for this provision, please email the KS2 office (ks2@greetlandacademy.org.uk) or ring us on: 01422 372893*

*Please do not leave an answer phone message as we are unable to access them at this time. Whilst we are committed to providing this care for vulnerable children and those of critical workers, there may be circumstances when we are unable to do so. Should that occur, we will work with the Local Authority to ensure that alternative provision is available. The Local Authority can be contacted on 01422 394101 or at school.effectiveness@calderdale.gov.uk.

23/03/20: From Monday 23rd March, to reduce the spread of the COVID-19 virus, The Greetland Academy is only opening for the care of identified vulnerable children and those of 'key workers'. The government has asked all parents to keep their children at home wherever possible, and schools are remaining open only for these specified children if they absolutely need to attend. Further detail and clarification is available [here](#).

Parents have been informed about their eligibility and arrangements for key worker childcare via our online learning platform Seesaw and/or text message. Any updates to the present situation will be made directly to parents through these channels.

Our teaching staff will maintain contact and set activities for pupils in their classes who are staying at home through Seesaw.

Thank you to everyone associated with our school for your support during these challenging times; we will get through the current situation by remaining positive and working together.

Mrs Crowther
